Department will submit to the dean’s office the information listed below through MyInfoVault (MIV).

___ Action Form.

___ Departmental letter of recommendation:

a. Report of the nature and extent of consultation and the vote of faculty members in the department. A separate department letter is required containing the vote and comments from eligible non-senate faculty for the Adjunct Professor and Health Sciences Clinical Professor series. Reasons for negative votes should be addressed in the department letter. Strongly recommend that all written comments be appended to the department letter.

b. Evaluation of teaching effectiveness, including analysis of student evaluations as well as other types of evaluations as appropriate.

c. Analysis of the quality of the research.

d. Evaluation of service contributions.

e. Evaluation of professional competence.

f. For Adjunct Professors the letter should include the percent distribution of research and teaching responsibilities.

**NOTE:** OPTIONAL – If appropriate, the department’s Criteria of Scholarship should be appended to the Department letter or referred to in the department letter.

___ Signed Candidate’s Disclosure Certificate.

___ Extramural letters: Letters are required for merit to first Above Scale only, and discouraged for all other merits. 6-8 letters are normally adequate. At least three should be “arm’s-length.” Include the following:

a. List of all referees, including academic/professional title and expertise of each referee. Upload into MIV as a Non-Redacted letter.
   i. This list must identify those nominated by candidate and those nominated by department. If the same name appears on both lists, they will be included on the department list.
   ii. Indicate which referees are arm’s-length.

   “Arm’s-length” letters are from external referees who are independent of the appointee, who are known scholars in the field, and who are able to provide an objective evaluation of the work. Use of external referees whom the reviewers may not regard as objective or independent, either because they are too close to the appointee professionally (collaborators, thesis supervisors, personal friends,
teachers, etc.) or because they have a personal relationship with the appointee, may be included if they shed light on collaborations. An effort should be made to contact individuals who have not contributed letters for prior reviews for the same candidate. It is also desirable to have some referees who are familiar with the UC rank and step system since referees from within the University (outside UC Davis) can speak to the issue of the appropriateness of the step.

**NOTE:** Review UCD 220 IV.F.3. for further information on determining “arm’s-length”.

b. Example of the solicitation letter. Do not include the name and address of a referee in the example. Upload into MIV as a Non-Redacted letter.

c. The following information should be marked on each of the extramural letters.
   i. Stamp all letters “CONFIDENTIAL”
   ii. Each letter must be identified separately by a letter or number that corresponds to the letter or number used in a. above, to ensure confidentiality of reviewers (APM 160).
   iii. Each letter should be identified as being from either the “candidate list” or the “department list.”
   iv. Indicate whether the letter is “arm’s-length” or “not arm’s-length”, according to the opinion of the department chair.

(See APM – 210; APM—220-80-c. and UCD 220 Exhibit B.)

**NOTE:** Upload the redacted and non-redacted versions of the extramural letters in MyInfoVault (MIV).

**NOTE:** Extramural letters are not required for Lecturers with Security of Employment and Senior Lecturers with Security of Employment being reviewed for advancement to the first Above Scale.
